INFORMATION SECURITY

ISO/IEC 27001:2022 Auditor Conversion Course ISMS

A highly interactive course that enables existing lead auditors who already have a suitable qualification (e.g. a lead auditor certificate) to gain the knowledge and skills required to conduct audits of an Information Security Management System (ISMS) against ISO/IEC 27001:2022.

🕐 3 day course **-** 08.45-17.30

CQI and IRCA training level **-** Professional

CQI and IRCA ref **-** PR374 (ATP number 2612)

Who should attend this course?

- Any existing lead auditors that wish to be able to conduct 1st party (internal), 2nd party (supplier) and 3rd party (external) audits of an information security management system (ISMS) that conforms to ISO/IEC 27001:2022.
- This course is only suitable for those who have successfully completed a 5-day Lead Auditor course (in any standard, i.e. ISO 9001, ISO 14001, ISO 45001, etc…). Please note that if a delegate intends to register with CQI and IRCA, the Lead Auditor course must have been CQI and IRCA-certified.
- Anyone involved in planning, managing or implementing an ISO/IEC 27001:2022 information security management system.
- Staff/managers who need to identify gaps in the effectiveness of an information security management system to help ensure the organisation remains compliant.
- This course satisfies the training requirement for anyone wishing to register as an Auditor with IRCA (International Register of Certified Auditors).

Prior knowledge requirements - delegates who attend this course must have an understanding of ISO/IEC 27001:2022. It is highly recommended that delegates attend our ISO 27001 Foundation course beforehand to gain this knowledge (we offer a £50 discount when booking both courses together).

What will delegates learn on this course?

This 3-day course is a condensed version of a 5-day Lead Auditor course, with a focus on the following knowledge and skills which are unique to ISO/IEC 27001:2022:

- Purpose of an Information Security Management System
- The audit process and types of audit, audit scope, criteria and objectives
- Role and responsibilities of an ISO 27001 Lead Auditor
- How to audit risk assessments
- Planning, preparation and management of audits
- The opening meeting, checklist development and document review
- Conducting and leading audit activities
- The closing meeting, reporting audit findings, following up on a previous audit
- Interviewing skills, team Leader skills

This course is based on the latest version of ISO 27001, which was updated in 2022. **Included with the course is a helpful guide which details the fundamental changes between ISO 27001:2013 and ISO/IEC 27001:2022.** ISO/IEC 27001:2022 specifically requires that personnel are competent – this course provides essential skills and knowledge to help delegates become fully competent auditors.

What is the format of this course?

- Training combines informative sessions alongside individual and group activities (approx. 25% theory and 75% practical).
- A case study is used throughout the course to support skills development.

What is the course assessment?

- Assessment is based on a delegate's overall course participation, including the interactive activities.
- Delegates are required to have 100% course attendance (a CQI and IRCA rule).
- Following the course, delegates must complete a 1-hour 35-minute online e-assessment with multiple-choice questions. This can be completed on a date/time convenient to each delegate but must be within 30 days of the course date (a CQI and IRCA requirement). For best results, taking the exam as soon as possible after the course is recommended. A webcam, microphone and speakers are required for the e-assessment.

What certificate is provided?

- A CQI and IRCA certificate. Please note – passing the ISO 27001 Auditor Conversion course exam is equivalent to passing an ISO 27001 Lead Auditor course exam; therefore, the certificate is of equal value.

What is included in the course fee?

- Pre-course work to help prepare for training (Training Toolkit)
- Delegate training manual
- Case Study documents
- Post-course notes
- A guide explaining the key changes between ISO 27001:2013 and ISO/IEC 27001:2022.
- CQI and IRCA certificate
- Lunch and refreshments (applicable when training at one of our venues)

This course has the following learning styles available:

In-house team training	Traditional Classroom	Scheduled public course	Live Virtual Classroom
